The application has been amended as follows:

In the specification, page 2, line 6, after "February 28, 2003", the following has been inserted: -- , now Patent No. 6,718,885 --.

### **REASON FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: Gersemsky, Catena, along with other cited and applied references in this application and in parent Application No. 10/376,739, now Patent No. 6,718,885, have been carefully reviewed. However, none of the references of record, taken singly or in combination, teaches a trolley having a combination of features; wherein, the second roller portion and the drive section include associated drive wheel, driven wheel and pair of pivotable upstream and downstream rollers arranged with respect to each other and to the enclosed track, in the manner as specifically defined in instant independent claims 1 and 10. Accordingly, instant independent claims 1, 10 and claims 2-9 and 11-18 depending therefrom are considered to be defined over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
